Licensed for wedding ceremonies

it's a nice day for a white wedding... or something a little bit different?

If the word 'traditional' makes you want to turn on your leopard print loafers and run for the hills, Malmaison might just be the place for you.

With the perfect mix of beautiful, unconventional spaces to hold your wedding or civil ceremony, and a mission to make those spaces uniquely yours, we can help you make your day as big as you want it to be.

A stuffy reception room and half a bottle of wine per head might be okay for some, but we do things differently. Imaginative canapés, master mixologists, eccentric

interiors... everyone's love story is unique, and we're here to celebrate that in everything that we do.

A little bird once told us that the way to someone's heart was through their taste buds. We have a collection of menus ready for you to fall in love with that range from the lavish to the laid back and provide the perfect complementary option to your occasion, your personal preference, and of course, your budget.

Whether you go for the subtly sophisticated, or bold and bursting with imaginative flavour combinations, we have the tailor-made solution that's right for your wedding day.

After all, Mal be the food of love.

Now for something really special...

Take your evening reception to new heights in our seductive sky bar, Sora, which may be cleared for your exclusive use on your big day.

Sora sits stylishly above the city on the seventh floor, with an outdoor terrace boasting stunning panoramas and an interior designed with delicate Asian influences that create romance and allure.

Prices available on enquiry.
